

February 6, 1974

SENATOR DUIS: Senator Cavanaugh, I think I heard you say adjusted gross income and I would suggest, if I might, that you explain the term adjusted gross income and also by that the amount sounds relatively small that you're proposing at the present time until you might get into the adjustment, and I think that the people of the Legislature should be appraised of the fact that

move to Select File if it goes that way. In the meantime print the amendment in the Journal and also attempt to get either from the fiscal staff or Mr. Peters or both what the possible probable cost of your minimum might be. Would you agree to that?

SENATOR CAVANAUGH: Well, couldn't we put it on now and I'd supply that by the time it got to Select File?

SENATOR CARPENTER: Well, I don't want to be disagreeable to you gentlemen. I think you might be hurting the bill because you don't have sufficient information, in my judgment now, in order to convince the Body the merits of what you're trying to do. Now if you can't get 25 votes in Select File you're not going to get them in any case anyway. I would hope that you would, let the bill move over, print it in the Journal, your amendment and get the information that many members want before they make a decision.

SENATOR CAVANAUGH: Well, Senator Carpenter, the amendment was distributed two days ago. Everyone has it on their desk.

SENATOR CARPENTER: Well, if you want to leave it that way, it's alright with me, I'm only trying to be helpful. I don't think they'll adopt your amendment as it now is without further information. I'm not opposed to it. But nevertheless, many people here are not as eager to take care of the aged as maybe I am. And after all, you've got to get 25 votes to get anything.

SENATOR CAVANAUGH: Well, not to be disagreeable with Senator Carpenter's bill, I'll do that, I'll wait until Select File.

SENATOR WHITNEY: Senator Cavanaugh, are you asking for unanimous consent...

SENATOR CAVANAUGH: I'll withdraw the amendment.

SENATOR WHITNEY: Is there any opposition to unanimous consent to withdraw the Cavanaugh Amendment? Senator Cavanaugh, do you want to print it in the Journal? Yes, he does. So this will be printed in the Journal. Is there any further discussion on LB613?

SENATOR CARPENTER: Advance E & R for Initial, as amended.

SENATOR WHITNEY: Senator Carpenter, would you care to close?

SENATOR CARPENTER: No, closing.
